

Amendments to the Claims:

The following listing of claims will replace all prior versions, and listings, of claims in the application:

{e1}1. (Currently Amended) A computer-executable method of displaying a document associated with a thumbnail generated based on an original document, comprising:

displaying the thumbnail corresponding to an original document and including an enhancement in appearance;

receiving a request to display the original ~~document-associated with the~~ thumbnail;

displaying a first version of the original document, at least a portion of the first version being more similar in appearance to a corresponding portion of the thumbnail than a corresponding portion of the original document.

{e2}2. (Currently Amended) The method according to claim 1, further comprising displaying a second version of the original document in which a portion corresponding to the at least a portion of the first version is more similar to the corresponding portion of the original document.

{e3}3. (Currently Amended) The method according to claim 2, wherein the second version is substantially identical to the original document.

{e4}4. (Currently Amended) The method of claim 1, wherein the corresponding portion of the thumbnail comprises an element modified during generation of the thumbnail.

{e5}5. (Currently Amended) An information storage medium on which is recorded a program for implementing the steps of claim 1.

{e6}6. (Currently Amended) An apparatus for displaying a document associated with a thumbnail image created based on an original document, comprising:

a display device; and

a controller that:

displays the thumbnail image via the display device, the thumbnail corresponding to an original document and including an enhancement in appearance;

receives a request to display the original document associated with the thumbnail image; and

displays a first version of the original document via the display device, at least a portion of the first version being more similar in appearance to a corresponding portion of the thumbnail than a corresponding portion of the original document.

{e7}7. (Currently Amended) The apparatus according to claim 6, wherein the controller further displays, via the display device, a second version of the original document in which a portion corresponding to the at least a portion of the first version is more similar to the corresponding portion of the original document.

{e8}8. (Currently Amended) The apparatus according to claim 7, wherein the second version is substantially identical to the original document.
